

BCSD NUT AWARE DAILY SNACK AND CELEBRATION LIST

The Bettendorf Community School District nurses, Director of Nutrition Services, and administrators have developed a list of safe snacks for students. The list has been developed to ensure all students are safe at school. We have considered feedback from parents and are providing a revised list for daily snacks and for celebrations. Thank you for supporting our district as we strive to provide a safe environment for all students.

Please limit to one snack per student. This list is effective between the hours of 8:00 a.m. - 3:30 p.m.

Items may NOT contain nuts or be made in a facility that uses shared equipment.
Items received that are past the printed expiration date will not be accepted.

CELEBRATION FOODS

MUST BE store bought, brand name specific, and come in original packaging – no exceptions.

DAILY SNACKS

Each student is to bring their own individual snack from the SAFE SNACK LIST.

Please remind your student to NEVER share their snack as *this could be a life threatening event for some students.*

The safest method of providing a safe snack is in a prepackaged individual serving.

In the event that an item is bought in bulk (e.g., fruits, vegetables, and cheese) and it is for your individual student only :

1. Make sure the item is on the approved snack list.
2. Prior to placing items in plastic baggies, take time to wash your hands, counter space, and any serving utensils with antibacterial soap and water.

* If it is medically necessary for your child to have a food alternative not listed on the BCSD Healthy/Safe or Safe Celebration list, you must contact your physician and provide a Dietary Modification Request form available on the BCSD website. The medical reason for the necessary accommodation must be listed as well as well as a NUT FREE alternative. A physician signature is required.

Every effort was made to ensure the items on this list could be found at local stores.

*BCSD does not consider all items on this list to be healthy.

*BCSD does not promote any brand names or stores.

*The law requires packaging to list any of the eight major allergens but does not require packaging to state if the product was manufactured in a facility that also processes nuts.
