

# Board Policy

Code No. 402.7

## EMPLOYEE RELATIONS WITH THE PUBLIC

Members of the school district community shall be treated with respect by school district employees. The Board encourages active participation by school district employees in community activities and events as a means to show respect for the district community.

It shall be the responsibility of a school district employee, as the employee participates in various community groups and events, to make a conscientious effort to make the school and its events a real part of the community. Providing exemplary customer service will be accomplished by thinking of students, parents, colleagues and community members as our customers and clients. A school district employee, as a good will ambassador, is encouraged to look for opportunities in which community and school can join forces for the betterment of the school district and the community.
