

Bettendorf Community School District

Nutrition Services Student Account Procedures

- Money will be credited to a student's account within 24 hours of receipt.
- We will allow a student to overdraw their meal account to negative \$10.00.
- If a student has a negative balance of \$10 or more, they will be offered all items on the daily menu except for the main entrée. The items available to students will be fruits, vegetables, milk and any other side items offered that day.
- Purchases of ala carte items are not allowed unless there are funds in the students account.
- Elementary students will not be allowed to purchase milk to go with their sack lunch if their account is more than negative \$10.00.
- Free and reduced procedures for individuals who do not qualify for free or reduced lunch by direct certification:

1) It will be necessary that you fill out a free and reduced application for meal benefits. You will be responsible for any meal charges until the time you are approved for free or reduced benefits.

2) If you were enrolled at BCSD the previous year, you will be grandfathered in for the same level of meal benefits as the previous year for the first 30 calendar days of the school year. If you have not reapplied for meal benefits by filling out a new application, you will be converted to paying status and payment will be expected.

If you have any questions please contact Kayla Leu, Director of School Nutrition at 359-3681.
