

Are you a family?

A teen?

One of those “new adults”?

Do you like fun?

*Then put your phone down, shut your laptop, throw your tablet out the window and get ready for **fun!***

Spend time together bonding, connecting, and enjoying one another’s company! There are dozens of new board games and card games to learn and play.

The gaming community of the Quad Cities will demonstrate some of these games to help you get started. These games are for all ages, and cover a wide range of gaming genres and styles.

There will be experts (a.k.a. nerds) available to help answer questions, teach game setup, and the basics of play. Most importantly, information will be shared on how to become more involved with the local gaming community at Bettendorf Public Library and in the Quad Cities.

For further information please contact

John Gillette
