District Update - *Mike Raso, Superintendent*

Superintendent Raso presented an update on the district including the progress of ground work for the new Grant Wood Elementary School.

Topic Presentation – Special Education Services

Kay Ingham, Director of Student Services & Curriculum

Kay shared a power point with the committee explaining the PLC (Professional Learning Community) Road Map to teaching and learning. She talked about the continuum of services in the Bettendorf Community School District including Core, Targeted Intervention and Intensive Intervention for students at both ends of the spectrum of needing additional challenges and interventions. Kay also shared the services provided in each school as well as the funding that supports the district's special education services and information about the number of students in each of the three levels of support.

Dallon Christensen, Director of Finance, also shared information about special education funding.
