

Board Policy

Code No. 804.9

BUILDING SAFETY AUDITS

The District will conduct a safety audit of all facilities and related safety and security policies and procedures on an annual basis. The audit will include a walk through of buildings and grounds, play areas, vehicle and parking areas, and a review of safety and security policies and procedures. A safety audit checklist will be utilized to set standards and provide benchmarking for year-to-year comparisons. Intervention and prevention plans and student handbook discipline and dress code guidelines will also be reviewed as part of the process.

The audit will be conducted in collaboration with local emergency responders (police, fire, etc.). The results of the audit and recommendations for improvements will be reported to the Superintendent and Board of Education for action.

Approved: January 10, 2005
