Portrait of a Graduate

Jillian Dotson, Director of Curriculum

Portrait of a Graduate is a collective vision of the community's aspirations for all students. It includes a structure that not only provides for the acquisition of rigorous academic content, but also critical thinking, communication, collaboration, creativity, and other 21st century skills. The main purpose of the work is to provide a strategic direction for the overall educational experiences for our students and the habits of mind that are needed to navigate and thrive in our rapidly changing world.
