

Family Resources to Support Student Learning

The parent/school partnership is important in the best of times. Given our current situation, this partnership is even more important as students may, at some point during the school year, be learning at home again. The district has purchased Canvas, a learning management system, that will help teachers interact with students no matter whether they are in school or learning from home, or a combination of both. A short tutorial video for that is linked below.

Below are links that can be used by families to enrich student learning no matter whether students are attending in person or online. All resources are free of charge.

	Elementary	Middle	High
Canvas	Canvas LMS for Parents - youtube video		Canvas Community - bit.ly/observer_canvas
Language Arts	Alphablocks (phonics for those learning to read) PBS Learning Media Readwritethink Epic - access to books for all levels of readers Teachers must create the class code in order to access for free Storyline Online - children of all ages enjoy being read to, by you or by a these online presenters	CommonLit Readwritethink PBS Learning Media IXL (district student login needed)	CommonLit Readwritethink Lit2Go
Math	ST Math Parent Letter (district student login needed) Helpful Questions to ask Bedtime Math Numberblocks (counting & early math concepts) Family Card Games Poly Up	Family Materials for Grade Level curriculum Khan Academy	Family Materials for Grade Level curriculum Khan Academy Plus Maths
Science & Social Studies	Amplify Science Mystery Science National Geographic Science Crash Course Kids PBS Learning Media	Amplify Science National Geographic Science Tween Tribune Smithsonian Learning Lab Crash Course iCivics Library of Congress PBS Learning Media	Khan Academy Smithsonian Learning Lab Teen Tribune NSTA Interactive eBooks+ Crash Course Digital Public Library of America Library of Congress PBS Learning Media
