

2021 Lego Robotics Sumo Camp

Who: 3rd - 8th grade students

What: Lego Robotics Sumo Camp

When: June 8th - 10th. 12:30 - 2:30

Where: Bettendorf Middle School Cafeteria

Why: Give students an opportunity to use their creativity and problem solving skills on a challenging and fun adventure. Each student will have their own robot kit where they will design and program a robot to stay in the sumo arena. Programming will run the gambit of basic movements to advanced programming using sensors and additional motors.

Sumo camp is a wonderful introductory opportunity for students to be exposed to robotics.

Advisors: Dan Drexler & Shannon Budde (sbudde@bettendorf.k12.ia.us)

Feel free to contact with any questions.
